

# reels identification

Every reel of paper produced by SAICA PAPER is identified by a standard marking system consisting of a label on the belly and ink-jet stencilling on the reel end.

The diagram shows a green and white label for SAICA paper. The label includes the following information:

- Trade name:** DUOSAICA
- Substance:** 100 g/m<sup>2</sup>
- Width:** 2180 mm
- Reel number:** 936 9288416 (digits 1-3: Production period. Example: 9 = 2019 year, 36 = week)
- Paper data bar code:** 521302180257207857
- Reel data bar code:** 23792884162703
- Weight:** 2572 kg
- Moisture:** 9,1%
- Length:** 7857 m
- Unwind direction:** Desbobinado / Unwind / Déroulement (indicated by an arrow pointing right)
- Reel diameter:** Ø 1400 mm
- Country of origin of goods:** Made in Spain

Labels on the left side of the diagram point to these fields: Trade name, Substance, Paper data bar code, Weight, Length, Customer specific information. Labels on the right side point to: Width, Reel number, Reel data bar code, Moisture, Top side or fluting indication, Unwind direction, Reel diameter, Country of origin of goods.

## ink-jet stencilling

The photograph shows the end of a paper reel with the following stencilled information:

- Trade name:** SAICA DUOSAICA
- Reel number:** 936 9288416
- Width:** 2180 mm -->
- Weight:** 2572 kg
- Substance:** 100 g/m<sup>2</sup>

Labels on the left side of the image point to: Reel number, Width, Unwind direction. Labels on the right side point to: Trade name, Weight, Substance.
